## Tip of the Month!

Ever wonder how to check if your eggs  
are fresh? Fill a bowl or pot with a  
few inches of tap water. Place your  
egg, still in its shell, in the water.  
Does it sink to the bottom and lie on  
its side? It should. An egg that floats  
or sits up straight is old. Shells are  
porous and leak air into them. The  
older the egg, the bigger the air  
pocket inside.

April/2008

Dear Food Fanatics,

Welcome to our first monthly newsletter! What better time to  
launch than spring. This season symbolizes a time for new beginnings.

We want to share with you some of what we have to offer. Each and  
every month, our newsletter will be updated and filled with new and  
interesting ideas and things to do. From our fun and creative  
recreational classes to our delectable Chef of the Day lunches.

Take a moment for yourself...whether you just read our newsletters  
for the Tip of the Month or decide to join one of our classes...we  
always have something to share!
